Dear Parents,

**Re: Internet Safety - Roblox** is an online game that your child may be aware of and use: it is growing fast in popularity and even rivalling Minecraft.

However we wanted you to be aware that within the game there is the option for players outside of a personal contact list to join and connect with users. Children learn in their lessons at school about online safety which would include, at an age appropriate level, the importance of never 'following' or 'adding' strangers to their online contacts nor responding if they are contacted online by someone they don't know.

We promote the principle that connections should only be made with people that they know and see in 'real life'. We wanted to ensure that you, as parents, are also aware of this.

Please also find a list of useful websites on internet safety for parents:
